RW144 Introductory Computer Science

Stellenbosch University Computer Science Assignment Declaration

I know that using another person's ideas (including written work and source code) and claiming them as my own constitutes plagiarism. I am aware that the potential penalties for this offence, as specified in the universitys policy on academic integrity, may include expulsion from the university and other serious consequences.

1. This submission is entirely my own work, excepting the inclusion of resources explicitly permitted for this assignment, and assistance as noted in the following item.

2. My submission acknowledges the source of all libraries and external sources used, and identifies any other students and/or staff (including demis, tutors, and lecturers) with whom I have discussed this assignment, as well as the extent of those discussions. Students and staff who helped me, or whom I helped, with debugging, should specifically be listed, as well as what portions of the code were involved. (Note that, unless explicitly stated otherwise, submissions or solutions to assignments in previous courses at this university or any other educational institution which correspond to (significant portions of) this assignment may not be used as external sources - in particular, do not look at or use solutions to assignments from previous years.)

3. I have not allowed, and will not in the future allow, anyone to copy any portion of my work, or give them access to it in any way, since they may have the intention of passing it off as their own work (whether as is, or in a modified form). In addition, I will not make my work publicly available in any way, including posting my code in public source code repositories or forums. (You may, however, allow someone to look at selected portions of your code for the purposes of debugging, but you may not make the code available to him/her otherwise.)

4. I have not and will not facilitate plagiarism, such as by distributing any written work or source code created by a fellow student.

5. I understand that any code I submit may be inspected for plagiarism detection (either manually or by automated systems) and be retained for detecting plagiarism in other courses.

6. I understand that uploading this form to my gitlab account constitutes my acceptance of this declaration.

Please upload this form to your gitlab account together with your submission.
Marks will be withheld for submissions without declaration.
